SHP-TS GROLUX

Petcare and HorticultureThe SHP-TS Grolux's patented arc tube delivers highest photosynthetic efficiency of any lamp in the world, with performance maintained at an exceptional level due to improved structure of outer bulb. The Grolux light spectrum maximizes red output essential for plant growth and is suitable for a plethora of applications related to plant growth.

- SHP-TS Grolux's range for Petcare and Horticulture
- Performance maintained at an exceptional level due to improved structure of outer bulb
- GroLux light spectrum maximizes red output essential for plant growth
- Suitable for a plethora of applications related to plant growth
- Patented arc tube delivers highest photosynthetic efficiency of any lamp in the world
- Optimized for the highest Phytolumens or PAR output
- Industry leading lumen maintenance of 95% at the end of life
